Our students

“ I am super happy with the math tutor that was chosen. Noor was fantastic. My son also passed his math resit. I also got quick responses to questions. Hats off to the way the organization runs! I recommend HelloProf to everyone. It's fantastic! We are proud parents.

Charlyn, mother of Tibo,
5th year of secondary school

“ HelloProf was very new and unknown to us at first, but it was a 100% success. It's a great organization, with a strong follow-up. I called on Friday and already received a proposal on Monday. Lessons are adapted to the pace and the need of the student. We only had good experiences. Thank you!

Ann, mom of Bo,

Start your journey with the ideal teacher today

Our daughter Tessa passed her mathematics resit and will be able to pick up her secondary education diploma next week. HelloProf's support, and Karam as a teacher undoubtedly contributed to this! Karam's dedication and drive made a lasting impact. He gave Tessa a lot of advice to make the subject matter more understandable, which greatly increased her insight and self-confidence. He was a really great teacher, we will never forget his help!

To parents who are hesitating, I can say that tutoring really makes a difference. The often complex subject matter is made much simpler, and there is strong focus on individual difficulties. Both the people at HelloProf and the teachers are super motivated, do quick in follow-ups and are incredibly sympathetic.

BijlesHuis has already helped more than 25,000 satisfied students

We are over the moon about the professional service, customer friendliness and flexibility of HelloProf. The tutor was also a gift: a math teacher with tons of experience. The good exam results were definitely the icing on the cake, I can confidently recommend HelloProf! Keep up the good work!

- Katrien ★★★★★

HelloProf provides excellent services! They found an economics tutor for our daughter very quickly. He is very flexible, competent, motivating and gives excellent lessons. HelloProf remains involved even after the introduction. HIGHLY RECOMMENDED!

- Natalie ★★★★★

If only I had discovered HelloProf sooner! Super handy and they quickly arrange a suitable teacher for you! I have used HelloProf for my 4th teacher already!

- Acelya ★★★★★

A beautiful bond of trust was built up between the teacher and our daughter Merlijn in a very short time. The results are there too: very nice progress through this 1 on 1. We are very happy that we took the step to call on your help. Some people are a bit shocked by the price tag, but we firmly believe in your quality. And I like to invest in quality. Sincere fans here!

- Marijke ★★★★★

Smooth, clear communication and ultra fast service! After my request everything was arranged very quickly and I could start my French lessons right away. I am very satisfied! I would definitely choose HelloProf again!

Rates

A teacher tailored to you

The price of your guidance is determined by:

The number of lessons: We work with lesson packages that range from 12 to 48 hours. All packages are valid for 12 months and can be used flexibly.

Your teacher: Every tutoring request is unique, just like every teacher. Together with you, we will tailor the profile of the teacher (junior, senior or pro) to the level of your request.

Looking for business guidance? Our organization is recognized by the government as a service provider for the SME portfolio. Contact us for a customized quote!

Homework support in your area

In the centre of Ghent and Aalst you can find our homework support classes, where students learn to learn and learn to plan under supervision after school. More information can be found on the following pages.

The rates for homework classes depend on several factors, such as the number of days your child comes to our location, whether siblings come along, etc. For more information, please contact huiswerkbegeleiding@helloprof.com.

Our offer next to tutoring: homework support in groups

Doing homework at home after school is not always easy for every child. Sometimes a student needs help with planning, is not motivated enough or too distracted to do schoolwork at home.

That is why, in addition to our 1-on-1 tutoring, we also organize homework support in small groups at various locations in Flanders and Brussels, led by a pedagogue. There, your son or daughter will learn study skills that he or she can use for the rest of their lives.

How does homework assistance work?

We will discuss your expectations with you and your child in advance. Your child will then work in a group for at least 3 afternoons per week on planning and making his or her homework.

Our supervisors help with preparing for tests, doing homework and retrieving study material. They also teach your child to work independently and in a structured manner.

Peace of mind, peace in your house

Together with the homework supervisor, your child will create a schedule for homework and tests. By making the work clear, it creates peace in the mind of the students.

When your child comes home from school, the homework is finished and the evening activities can begin. This gives everyone peace of mind.

As a parent, you will also receive regular feedback from the homework supervisor to identify problems in a timely manner.

Our homework tutors

Our homework supervisors have gone through an extensive selection procedure. They have been screened for their pedagogical skills and subject-matter knowledge. Our supervisors inspire, motivate and give confidence. At your location, one supervisor is there permanently, along with a point of contact for you, your child and the school.

“

The transition from primary to secondary education is not straightforward for every child. An independent study attitude is expected in a short time and this process is different for every student. I start this search together with the student and give the space to grow at their own pace. No question can be asked too often.
